SUMMARY

- Recently graduated and with strong analysis skills like Excel, Power BI and SQL i would like to apply in the real world applications.
- Developed Interactive dashboard, visualization to help me out to find insights, patterns and decision-making.

SKILLS

- **Programming Language:** Python, SQL
- **Tools/Visualization:** Power BI, Tableau, Excel
- **Database:** MySQL
- **Cloud:** Azure, AWS

WORK EXPERIENCE

CSRBOX
Data Analysis
- Using Ms Excel and Tableau I learn how to deal with data cleaning and preprocessing.
- Creating a Dashboard and Report gives me more work with data.

Cognifyz
Data Visualization Intern
- It helps me to understand the proper way to visualize data.
- Which charts are used when dealing with complex data.

PROJECTS

- ❖ Sales Report On Power BI
- I created a report which helps me track the data in different cities.
- It is an interactive dashboard that tracks total revenue, sales trends, and regional performance.

- ❖ Tourism Dashboard- CSRBOX
- Tracks overall tourist visits and growth trends.
- Highlights top destinations and regions.
- Monitors tourism revenue and economic impact.

- ❖ Vrinda Store Analysis- EDUCBA
- Provides overall sales and revenue performance.
- Shows regional sales distribution and contribution

CERTIFICATES

- ❖ Data Analysis CSRBOX
- ❖ Data Analytics Job Simulation, Deloitte
- ❖ Skillup Excel, EDUCBA
- ❖ Data Visualization Intern,Cognifyz

EDUCATION

- **GTU-Information Research and Institute (GTU-ITR), Mahesana**
  B.E. Computer Engineering
  CGPA: 7.35   (Sep' 22 - June' 26)

- **B.M. High School, Patan**
  XII (Physics, Chemistry, Mathematics)   (June' 21 - March' 22)
